SUMMARY DECISION SHEET

Purpose: Commissioner Decision – Ref. DLI100

Timing: Routine

Title: Tregaron Engagement Event

Category of Decision / Business Area Impact: Engagement

Executive Summary:

Following HMIC's 2017 recommendations, Carys Morgans, PCC's Chief of Staff, and DPP's then CS, now T/ACC Vicki Evans requested that a joint engagement project be developed; specifically looking at whether local NPTs are dealing with things that matter to people in their areas. The overarching question of this piece of work being: "What does your community look like?"

The initial aim was that this engagement project would enable us to hold comprehensive engagement days to consult with various communities and community groups, in order to identify specific local policing issues and concerns.

The long term plan is to have a rolling project of engagement days across the Dyfed-Powys area. The short term plan is to trial this approach within one community in Dyfed-Powys. Tregaron has been nominated as trial community, and this is mainly due to information provided by the residents of Tregaron through the OpCynefin work undertaken by DPP's Corporate Communications Team: i.e. that Tregaron residents did not feel informed of local policing issues or whether the police were tackling them, but the majority wanted to find out more about local policing.

Various issues were highlighted through OpCynefin, and not all were linked to services provided by the police. A collaborative engagement approach will therefore be adopted, and various partners invited to be part of the above-mentioned engagement day.

Recommendation: To trial this approach to community engagement in Tregaron, and if successful, to duplicate in different communities across the Force area.

Police and Crime Commissioner for Dyfed-Powys

I confirm I have considered whether or not I have any personal or prejudicial interest in this matter and take the proposed decision in compliance with the Nolan Principles for Conduct in Public Life.

The above request has my approval.
